2023 – 2024 EMHS Foundation Mission and Member Profiles

The East Mountain High School Foundation was formed in 1996 to accept the donation of twenty-six acres of land from Roger Cox and Mountain Ranch. With the help of many generous community members, the Foundation was able to secure a loan from First Community Bank that allowed us to build the East Mountain High School campus, opening its doors to students in August 2000. Today, the Foundation continues to work tirelessly to raise funds for East Mountain High School.

The Mission of the EMHS Foundation, a 501(c)(3) non-profit organization, is to partner with East Mountain High School and the community to create exceptional public educational opportunities.

Why does a public charter school need to raise money? The state only provides a certain amount of funding to charter schools. State funding is an essential foundation but doesn't allow for the level of excellence our students and families are seeking. To support the EMHS mission of preparing students to become creative problem solvers and forward-thinking leaders, the EMHS Foundation gives directly to EMHS academic and extracurricular programs, including:

Providing financial support for classroom materials and needs outside the regular budget

Supporting the school's capital and infrastructure goals in order to provide the best environment possible for student learning
